

Vibration Isolation Platform

VIP Series 3200

A Vibration Isolation Platform designed to fit the microscope.

The versatility of Vistek's vibration isolation technology makes it possible for us to design and manufacture a Platform that will fit the exact footprint of your microscope. This elegant solution allows you to conserve valuable tabletop or counter top space.

Vistek has developed over 35 different custom Vibration Isolation Platforms for the microscopy marketplace. We work closely with the major microscope manufacturers to develop Platforms that will fit the footprint of the microscope base.

Please visit our web site or contact your local microscopy dealer or the microscope manufacturer to learn if we have designed a Platform for your microscope. If we have not, ask us to and we will.
